

**Jeffrey Ganek***Chairman of the Board*

Jeff Ganek serves as Chairman of the board of NeuLevel and as Chairman and Chief Executive Officer of NeuStar.

Mr. Ganek has more than 20 years of experience in telecommunications, and has held senior management positions in operations, finance, marketing, and business development. He has been with NeuStar since its inception as the independent Communications Industry Services (CIS) division of Lockheed Martin. While at Lockheed Martin, Mr. Ganek was Senior Vice President and Managing Director of the Communications Industry Services (CIS) group, which provided database, transaction, and administrative services to the telecommunications industry. Prior to that, Mr. Ganek was Vice President of Marketing at GTE and Vice President of Operations at Global TeleSystems.

Mr. Ganek holds a bachelor's degree in economics and a master's degree in public policy and management, both from Carnegie Mellon University.

**Richard Tindal**

*Vice President, Registry Services*

Richard Tindal has overall responsibility for the .BIZ Registry, with a particular focus on establishing strong technical, operational, contractual, marketing and billing relationships with NeuLevel-accredited Registrars that promote, sell and support .BIZ, .CN and .TW domain names.

Mr. Tindal has over 15 years of experience in international business development and sales, with a recent focus on domain names and Internet identity products. He also works with NeuStar's strategic partners to enhance the functionality and utility of the .US domain space.

Mr. Tindal holds an Honors Degree in business administration from the University of Southern Queensland, Australia.

***Tim Switzer****Vice President, Finance and Customer Operations*

Tim Switzer is responsible for all aspects of NeuLevel's Finance, Customer Service, Billing/Payment Processing, and Administration/Human Resources. He works closely with both NeuStar and Melbourne IT on various financial issues, focusing on the creation and maintenance of a customer support network that ensures accurate transaction processing, the meeting of all Service Level Agreements (SLAs), and payment collection. He also manages all financial planning and reporting activities.

Prior to joining NeuLevel, Mr. Switzer spent five years as Vice President of Operations and CFO at Visa Interactive and Integrion in the electronic banking and bill payment business. He has also held various financial and administrative management positions during 15 years at IBM.
