## **.BIZ AT A GLANCE**

*In business, your brand is everything.*

From your company's trade name to the services you offer to the goodwill you have built with your customers, your reputation is worth protecting – both online and off. Today, **.BIZ** offers you a unique opportunity to enhance and expand your market position.

**.BIZ** is the first and only global top-level domain (gTLD) dedicated exclusively to meeting the high-performance needs of the business community. It is a true "online marketplace" in which businesses of every size, industry classification and geographic locale compete, collaborate and communicate.

Further, **.BIZ** leverages the most advanced Internet infrastructures and platforms available, giving businesses around the world a unique new way to define themselves.

- Powerful architecture dedicated to online commerce
- Built-in security features protect sensitive data
- Superior directory services enable customers to quickly find companies
- Dynamic, state-of-the-art platforms facilitate transactions of all types
- Robust network reduces traffic and promotes more efficient communications
- Open interface standard promotes development of new products and services
- Opportunity for businesses to secure their ideal domain name in a dedicated e-commerce environment
